

[Harras Haico Alary Aslar](#) passed FH 1 - 91b. (unfortunately -5pts. for the second object, even though Harras marked it correctly, then on wet crop field he unfortunately stood up and shook off... vocal correction had to follow... )

[Krystal Kasey Alary Aslar](#) did her IPO 3 on 273b. (85-90-98), unfortunately again -7pts. for the last object. She finished the track, she did mark the object in standing position for a while... and then unfortunately left it and came right opposite to me... oh, those wet winter cereals, probably not the most comfortable for the dobermann to lie-down..., the overall result could be even a little better, but never mind, yet she passed the points limit for all breed IPO Nationals FCI Qualification in 2015!

Both of them made me a great pleasure - very good and promising performance today from both !!!
